

Curriculum Vitae

1. PERSONAL INFORMATION

Full Name	Phone
Kabtamu Getaw Temtim	09 42 49 03 42
Email	Location
kabtamugetaw589@gmail.com	Addis Ababa,ethiopia
Portfolio https://kabtamu1221.github.io/port_folio/	

2. PROFESSIONAL SUMMARY

Results-driven Computer Science graduate with hands-on cybersecurity training from **INSA(information networking security administration)** and **Qiyas-AAU(addis ababa university)- Project**, specializing in Ethical Hacking, SOC Analysis, Active Directory Security, and Malware Analysis. Experienced in **software development and security projects**, with practical skills in threat hunting, log analysis, and penetration testing. Seeking a cybersecurity role to help protect digital assets and strengthen organizational security.

3. EDUCATION

Qualification	Institution	Completed Year
BSc in Computer Science	Debre Markos University	2025

4. INSA AND QIYAS TRAINING

- ❖ **Training Category / Program:** Cybersecurity and Digital Risk Management
- ❖ **Training Period:** May 26, 2026 – September 30, 2026 at **QIYAS-AAU** AND July 25,2026 - present at **INSA**
- ❖ **Key Competencies:** Network Security, SOC Monitoring, Incident Response, Penetration Testing, Vulnerability Assessment, Threat Hunting, Web Application Security, Linux/Windows Security, SIEM & Log Analysis, Wireshark, Nmap, Burp Suite, Wazuh, Kali Linux, Python & Bash Scripting.

5. WORK EXPERIENCE / INTERNSHIP

- ★ **Organization / Employer:** Super Double T General Trading PLC
- ★ **Role / Position:** System Administrator
- ★ **Period:** September 17, 2025 – December 27, 2025
- ★ **Responsibilities / Achievements:**
 - ❖ Configured and maintained network/server infrastructure for secure, reliable operations
 - ❖ Hardened systems and managed user access controls across Windows/Linux environments

6. TECHNICAL & PRACTICAL SKILLS

- ❖ **Cybersecurity:** SOC, SIEM, Threat Hunting, Incident Response, Network Security
- ❖ **Penetration Testing:** Kali Linux, Nmap, Burp Suite, Vulnerability Assessment
- ❖ **Security:** Wireshark, Active Directory, Linux/Windows Hardening
- ❖ **Programming:** Python, Bash, Java, JavaScript, React, Node.js, Golang
- ❖ **Development:** HTML, CSS, REST APIs, Git, GitHub, Docker
- ❖ **Training:** INSA Cybersecurity Training; Qiyas-AAU :-Cybersecurity & Digital Risk Management

7. PROJECTS / PRACTICAL ASSIGNMENTS

- ★ **Web-Based Health Information System** — Developed a PHP/MySQL web application using react native,HTML, CSS, and JavaScript to manage patient records and appointments and reduce manual errors. *(Final Year Project, Debre Markos University)*
- ★ **Security Monitoring & Incident Response Platform** — Developed a cybersecurity platform with a **Python backend** and **React dashboard** for security event collection, real-time threat detection, monitoring, and incident response, using Wazuh, Wireshark, and SIEM concepts. *(INSA Cybersecurity Final Project)*

8. CERTIFICATIONS / ADDITIONAL TRAINING

- **Cyber security and digital risk management —Qiyas-AAU(Addis Ababa University)-PROJECT**
- **Data Analysis Fundamentals** — 5 Million Ethiopian Coders (in collaboration with Udacity)
- **Android Developer Fundamentals** — 5 Million Ethiopian Coders (in collaboration with Udacity)
- **Programming Fundamentals** — 5 Million Ethiopian Coders (in collaboration with Udacity)

9. LANGUAGES

- ❖ English-Proficient
- ❖ Amharic -Native
